Industrials and Grangers Share in the Raid on New England-Indianapolis Grain Unchanged.

At New York yesterday money on call was easy at 1@11/2, the last loan being 11/2, closing offered at 11/2 per cent. Prime mercantile paper, 31/2/051/2.

Sterling exchange was quiet and easier with actual business in bankers' bills at \$4.86% @4.87 for demand, and at \$4.84% @4.84% for sixty days; posted rates, \$4.85\\@4.88; commercial bills, \$4.83\\@4.83\.

Silver certificates, 69%c last bid. Bar silver closed at 69%c per ounce. At London

Total sales of stocks yesterday amounted to 250,100 shares, with Sugar, General Electric, St. Paul and Burlington leading. It served in no degree to give tone to the share speculation that the movement of gold to Germany had been checked by the decline in exchange. The announcement that no more gold would go abroad for some weeks to come gave no support to a market in which the sellers largely outnumbered the buyers. The feature of the Stock Exchange dealings was the determined attack made by the bear clique on New England, which sold it down 31/8 per cent., with never a rally beyond an occasional 116c, the net loss on the day being 2% per cent. The best opinion as to the motive for the raid is the opposition to Mr. McLeod's project to gain an entrance for New England into New York city, and they desired to depreciate the stock in the hope of embarrassing him in the completion of his plans. A drive was also made against St. Paul on the publication of the earnings for the second week in December, showing a decrease of \$171,833, which is heavier than was expected. The selling was not all by the bears, as not a little long stock was also placed on the market, the

in value of 1% from the highest point of the morning had been effected with only a recovery of % at the close. Sugar was next in point of activity, and was strongly held in the early dealings, advancing 1/2 per cent., but then giving way with the rest of the market 1% per cent., of which 1/4 per cent. was recovered in the final sales. The preferred stock broke 2 per cent, on sales of three onehundred share lots. General Electric had also to bear the brunt of a bear attack. which was most pronounced in the late dealings. The stock was somewhat sensitive in view of reports of the commence ment of suits against the company on different causes of action, one being that its organization was a hindrance to trade. After a % advance from the opening the shares dropped 2%, recovering % in the

decline which followed continuing un-

til the final dealings when a depreciation

The general market was heavy at the opening, but the early decline was merely fractional, and during the first half hour of business prices were fairly well maintained. Then came the bears to the attack, and the hammering of New Eugland and St. Paul depressed the entire list, which yielded easily in the absence of supporting buying orders from abroad or at home, what little the London houses did being on the short side of the market. Shortly after 11 o'clock there was a fractional recovery, but after midday the pressure to sell became more pronounced than ever, and for the rest of the afternoon until a few minutes before the close the course of values was downward on an active market in which the transactions were well distributed. Some purchases to cover short contracts brought about a slight recovery in the final dealings and the market closed a shade better, but at a decline compared with the closing figures of Saturday, ranging from 14 to 5 per cent., in which every stock traded in, with two or three unimportant exceptions, par-

LOCAL GRAIN AND PRODUCE.

Trade Opened Quiet Except in Holiday Lines, with Few Changes. It was rather quiet on the wholesale aside from establishments which handle holiday specialties, and quiet times are looked for the remaining days of the year. In prices changes were few. Oranges

figures ever touched on good fruit, and the supply is large. But few apples are on the market, and they are held at \$5.50 to \$6 per barrel. Sweet potatoes are off another cents and in large supply. Poultry a shade firmer, but not quotably higher. Eggs firm. Staple groceries rule steady, with sugars and coffees in better supply. The dry goods market is dull; taking account of stock will be the next thing in order. The hide market is inactive at unchanged prices. Holders of wool have en unloading and the shipments of the last two weeks have been larger than in any three months since the new clip came on the market. The local grain market was in better

tone yesterday, but no improvement in prices; in fact, some grades of corn were c lower. Track bids yesterday ruled as fol-Wheat-No. 2 red, 571/c; No. 3 red, 54c; rejected, 40@50c; wagon, 58c.

OBJECT TO THE STREET.

West Indianapolis Town Board Meets -One Case of Suburban Gambling. Last night's session of the West Indianapolis Town Board of Trustees was long and tedious. The final readings of the town engineer's estimates of the improvements of Lambert street and Sheffleld avenue were heard and approved by the board. A number of property owners on Sheffield avenue have remonstrated several times against certain features of the improvement, and last night they had a last chance at it. They were represented by an attorney, who said that the gravel was not according to specifications; that it was not gravel, but it was sand. The culverts were not of the required dimensions, and neither were they completed. His best argument was that it was not legal to assess the same cost against property owners who lived on a forty-foot street as against those who live on a sixty-foot street. Attorney S. M. Ashby, employed by contractor McCray, replied that the gravel was up to grade, that the culverts were complete and were of the correct size. In regard to the illegality of the nonconformity of the dimensions of the street, he cited a case in Fort Wayne where a street thirty-two feet wide and forty-two feet wide in two sections, respectively, had been improved at the same cost to each half. The case was contested before the Supreme Court, but the improvement was upheld. The clerk filed a report showing that there were property owners on the improved part of Kappes street assessed to the amount of \$340.13 who wished to take the advantage of the Barrett law. The report was accepted, and an ordinance was passed empowering the clerk to draw up a bond to cover the

Among the small number of bills presented were those of the water company. One was for the damaging of a fire plug by the fire department team, and the amount was \$22.50. A bill of \$756.02 was also presented by the company, but a part of it, which amounted to \$43.70, was not allowed. The remainder was ordered paid. The firemen's salaries for the first half of December were allowed. The board experienced its weekly dose of paralyzation when a bill was presented asking the board to allow for the printing of some hand bills which were used to concentrate attention on a certain annexation meeting that was held at Spencer's Hall several weeks ago. J. B. Porier presented the bill as the leader in the meeting, but it is needless to say it was not allowed. 'Squire Allen is the authority for the statement that there were but two present at this meeting, Porier and one other gentleman.

Worked the Little Ball.

Notwithstanding that the town officials of West Indianapolis are claiming that there is no gambling in that suburb, certain residents are loudly proclaiming the fact that there is. In proof they are citing the case of Mrs. Louis Glazier, of 56 River avenue, who, when her son reported to her that he had lost \$15 at a suspected gambling institution, appeared at the screen and loudly denounced the institution and town officials. The facts of the case are as follows: Mrs. Glazier's son, who is about eighteen years of age, was sent to the city, Saturday afternoon, to collect a bill of \$15. Returning evening he fell in with several "shell workers who had stationed themselves in the yard in the rear of Al Hird's salcon, at the corner of Hadley avenue and Morris street. Glazier's money was soon foreign to him, and soon after came the appearance of his mother. Al Hird heard of the trouble, got track of the "shell workers," and forced them to return the money. Marshal Maholm still persists that there is no public or any known gambling house in the suburb.

WHEAT GOES LOWER

May Reaches 66 1-2c, the Lowest Point at Which It Ever Sold.

Great Increase in the Visible Supply and Small Shipments Caused the Drop in Grain-Pork Down.

CHICAGO, Dec. 18.-Wheat dropped 1/30 to-day and May broke all records, landing at 661/2c, the lowest it ever sold before. The cause assigned was the heavy increase in the visible supply. Corn and oats went down in sympathy with wheat and because of their own too liberal receipts. May corn is %c lower and May oats %c off. Provisions also suffered a sharp break.

Wheat opened with May 1/8c down at 671/2c, but with Northwestern receipts light compared with last week's movement and very light compared with last year, advanced to yesterday's closing prices. The amount on ocean passage was unchanged and the Liverpool market was quoted by a private cablegram as firm with an upward tendency which was said to be due to decreasing Russian exports. This held prices steady for a time, but as the returns come in, the indications were for a heavy increase in the visible, and with the subsequent selling the market began to weaken. Prices went down until 67c was reached under the constantly increasing indications of an increase. The returns were slow in coming in, but when the report was posted it confirmed the worst fears of the bulls and the expectations of the bears were more than fulfilled. Instead of an increase not to exceed 200,000 bushels as looked for, the increase amounted to 1,345,000 bushels, leaving the total at 80,128,000 bushels compared with 78,320,000 bushels at the corresponding date last year. Chicago stocks increased 403,000 bushels, Minneapolis 597,000 bushels, and Duluth 354,000 bushels, an increase of 1,364,000 bushels at the three places, or about equal to the entire increase, leaving the stocks at all other points as balancing each other. Immediately following this announcement there was another drop The export clearances were added prices. bearish news of the day, showing exports of but 112,000 bushels of wheat and flour at the four principal Atlantic ports and New Orleans. There were a few rallies on buying at the low prices, but the weakness of the market continued until the bell put an end to the bulls' misery, and May closed at the bottom figures of the day. May opened at 671/2c, advanced 1/3c, sold off %c, railied %c, lost %c and declined another 4c to close at 661/2c. Corn started with May 1/3c off at 39%c. Receipts were 612 cars against the estimates of 425, and this, with the weakness in wheat sent the price down until May reached 387sc. It rallied 1/4c at the end to close at 39c. Oats were firm at the start, May opening

only 1/4c lower at 30%c. It held steady for a time, but the weakness in corn was against the market and, despite liberal buying by Irwin-Green. Walker & Wren and others, May sold off steadily and closed at 30%c, but 1/3c above the bottom figures of the day Provisions were dull and weak with packers selling, and influenced by the extreme weakness in the grain pits. Compared with Saturday night, January pork is 271/2c lower;

January lard, .171/2c lower, and January The reduced rates to New York went into effect to-day, being 171/20 per 100 pounds on flour and grain, 20c for provisions.
